

CERTIFICATE

Corporate Carbon Footprint

19,43 t CO₂e

enterprise

Sattler KunststoffWerk GmbH

location

Mühlheim am Main

REPORTING YEAR:

January 1, 2024 to December 31, 2024

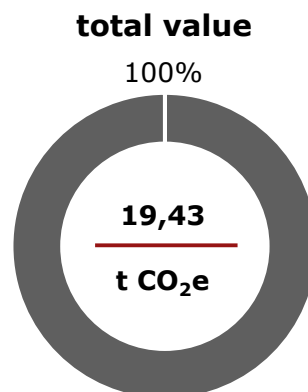

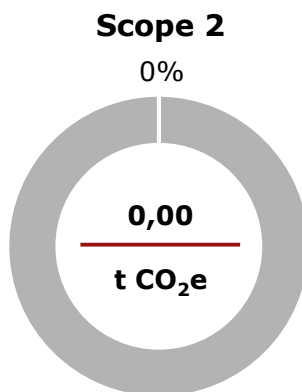

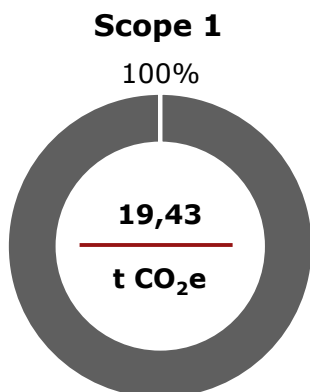

SYSTEM MODEL:

The system model covers all emissions in accordance with Scope 1 and 2 of the GHG Protocol for the specified reporting year at Mühlheim am Main. The environmental impact of all direct and indirect emissions was calculated using aggregated data sets from the ecoinvent 3.11 life cycle assessment database. The environmental impacts in Scope 2 were assessed using a market-based approach, applying the individual emission factor for energy consumption.

SAFETY MARGIN:

An additional safety margin of 8.6% is recommended to take account of quantitative and qualitative uncertainty.
